

National EV Insight and Strategy

Supplying Local Authorities with reliable, independent, up-to-date information about Electric Vehicles and Charging Infrastructure

NEVIS is a new service launched in September 2022 to support LA strategy and delivery.

It contains an expanding range of modules to put the right advice, insights and analysis in the hands of those responsible for the deployment of EV charging infrastructure,

It is free for English LAs until March 2025 as part of Cenex's LEVI Fund Support Body activities, with a small charge for non-English LAs.

NETWORKING

A community that connects Local Authority officers together to share and equip each other.

INSIGHTS TOOLKIT

Regularly updated analysis on current status, projected scenarios, benefits and outline business case.

SUPPORT

Direct contact with Cenex's expert consultants and partners to answer your queries, questions and concerns

EVENTS
